MONTHS OF
PERSONAL GUIDANCE

A focus shaped around your life

Calls and messages through the six months

Space to revisit, reflect and ask

All four areas considered together

Health

Relationship

Career

Money

WHO IT IS FOR

When one conversation *is not enough.*

A consultation answers a question. The program stays with you while the answers turn into changes, over six months of ordinary life.

01 The same pattern keeps returning, in more than one area of life.

02 A big decision is coming, and you want steady guidance through it.

03 You would rather have someone stay with you than a single reading.

04 Your family is part of the question too.

Ask whether it suits you

HOW IT WORKS

Six months, *at your pace.*

The details are agreed with you at the start, around your life and your questions.

- 1

Begin with the whole picture

A first, full conversation about your questions, your circumstances, your numbers, chart and surroundings.
- 2

Calls through the months

One-on-one calls with Narayani across the six months, at a rhythm you agree at the start.
- 3

Messages in between

Write when something comes up, from a hard day to an everyday choice.
- 4

All four areas, together

Health, relationship, career and money, looked at as one life.

CONSULTATION OR PROGRAM?

Two ways to begin. *One conversation first.*

Not sure which suits you? Ask, and the team will tell you honestly.

CONSULTATION

One focused conversation

Around a single question

Online or in person

GUIDANCE THAT STAYS

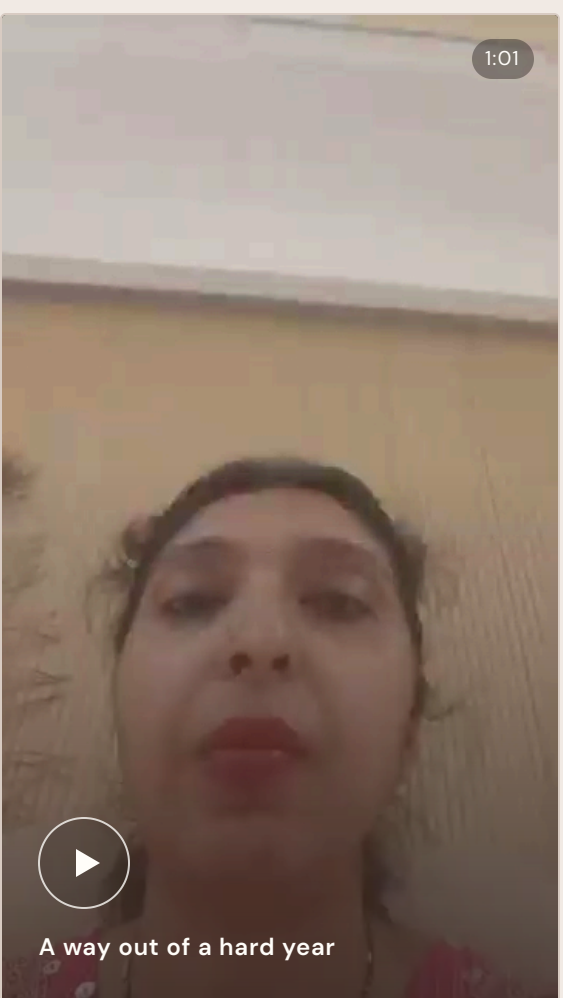

In *their* words.

“
Whenever we have to take a major decision, we consult her, and she tells us the broader picture. The response is so accurate, and the availability is amazing.

BEFORE WE BEGIN

A little more *understanding.*

Choosing someone to guide you is personal. Here are a few things you might want to know.

Ask your own question

- How often will we speak?

+
- Can my family be part of it?

+
- Can I start with a single consultation?

+
- Can I take part from outside India?

+
- What does the program cost?

+
- Does this replace medical or professional advice?

YOUR NEXT CHAPTER

Begin with *a conversation.*

Tell us what is on your mind. We will take it from there.
